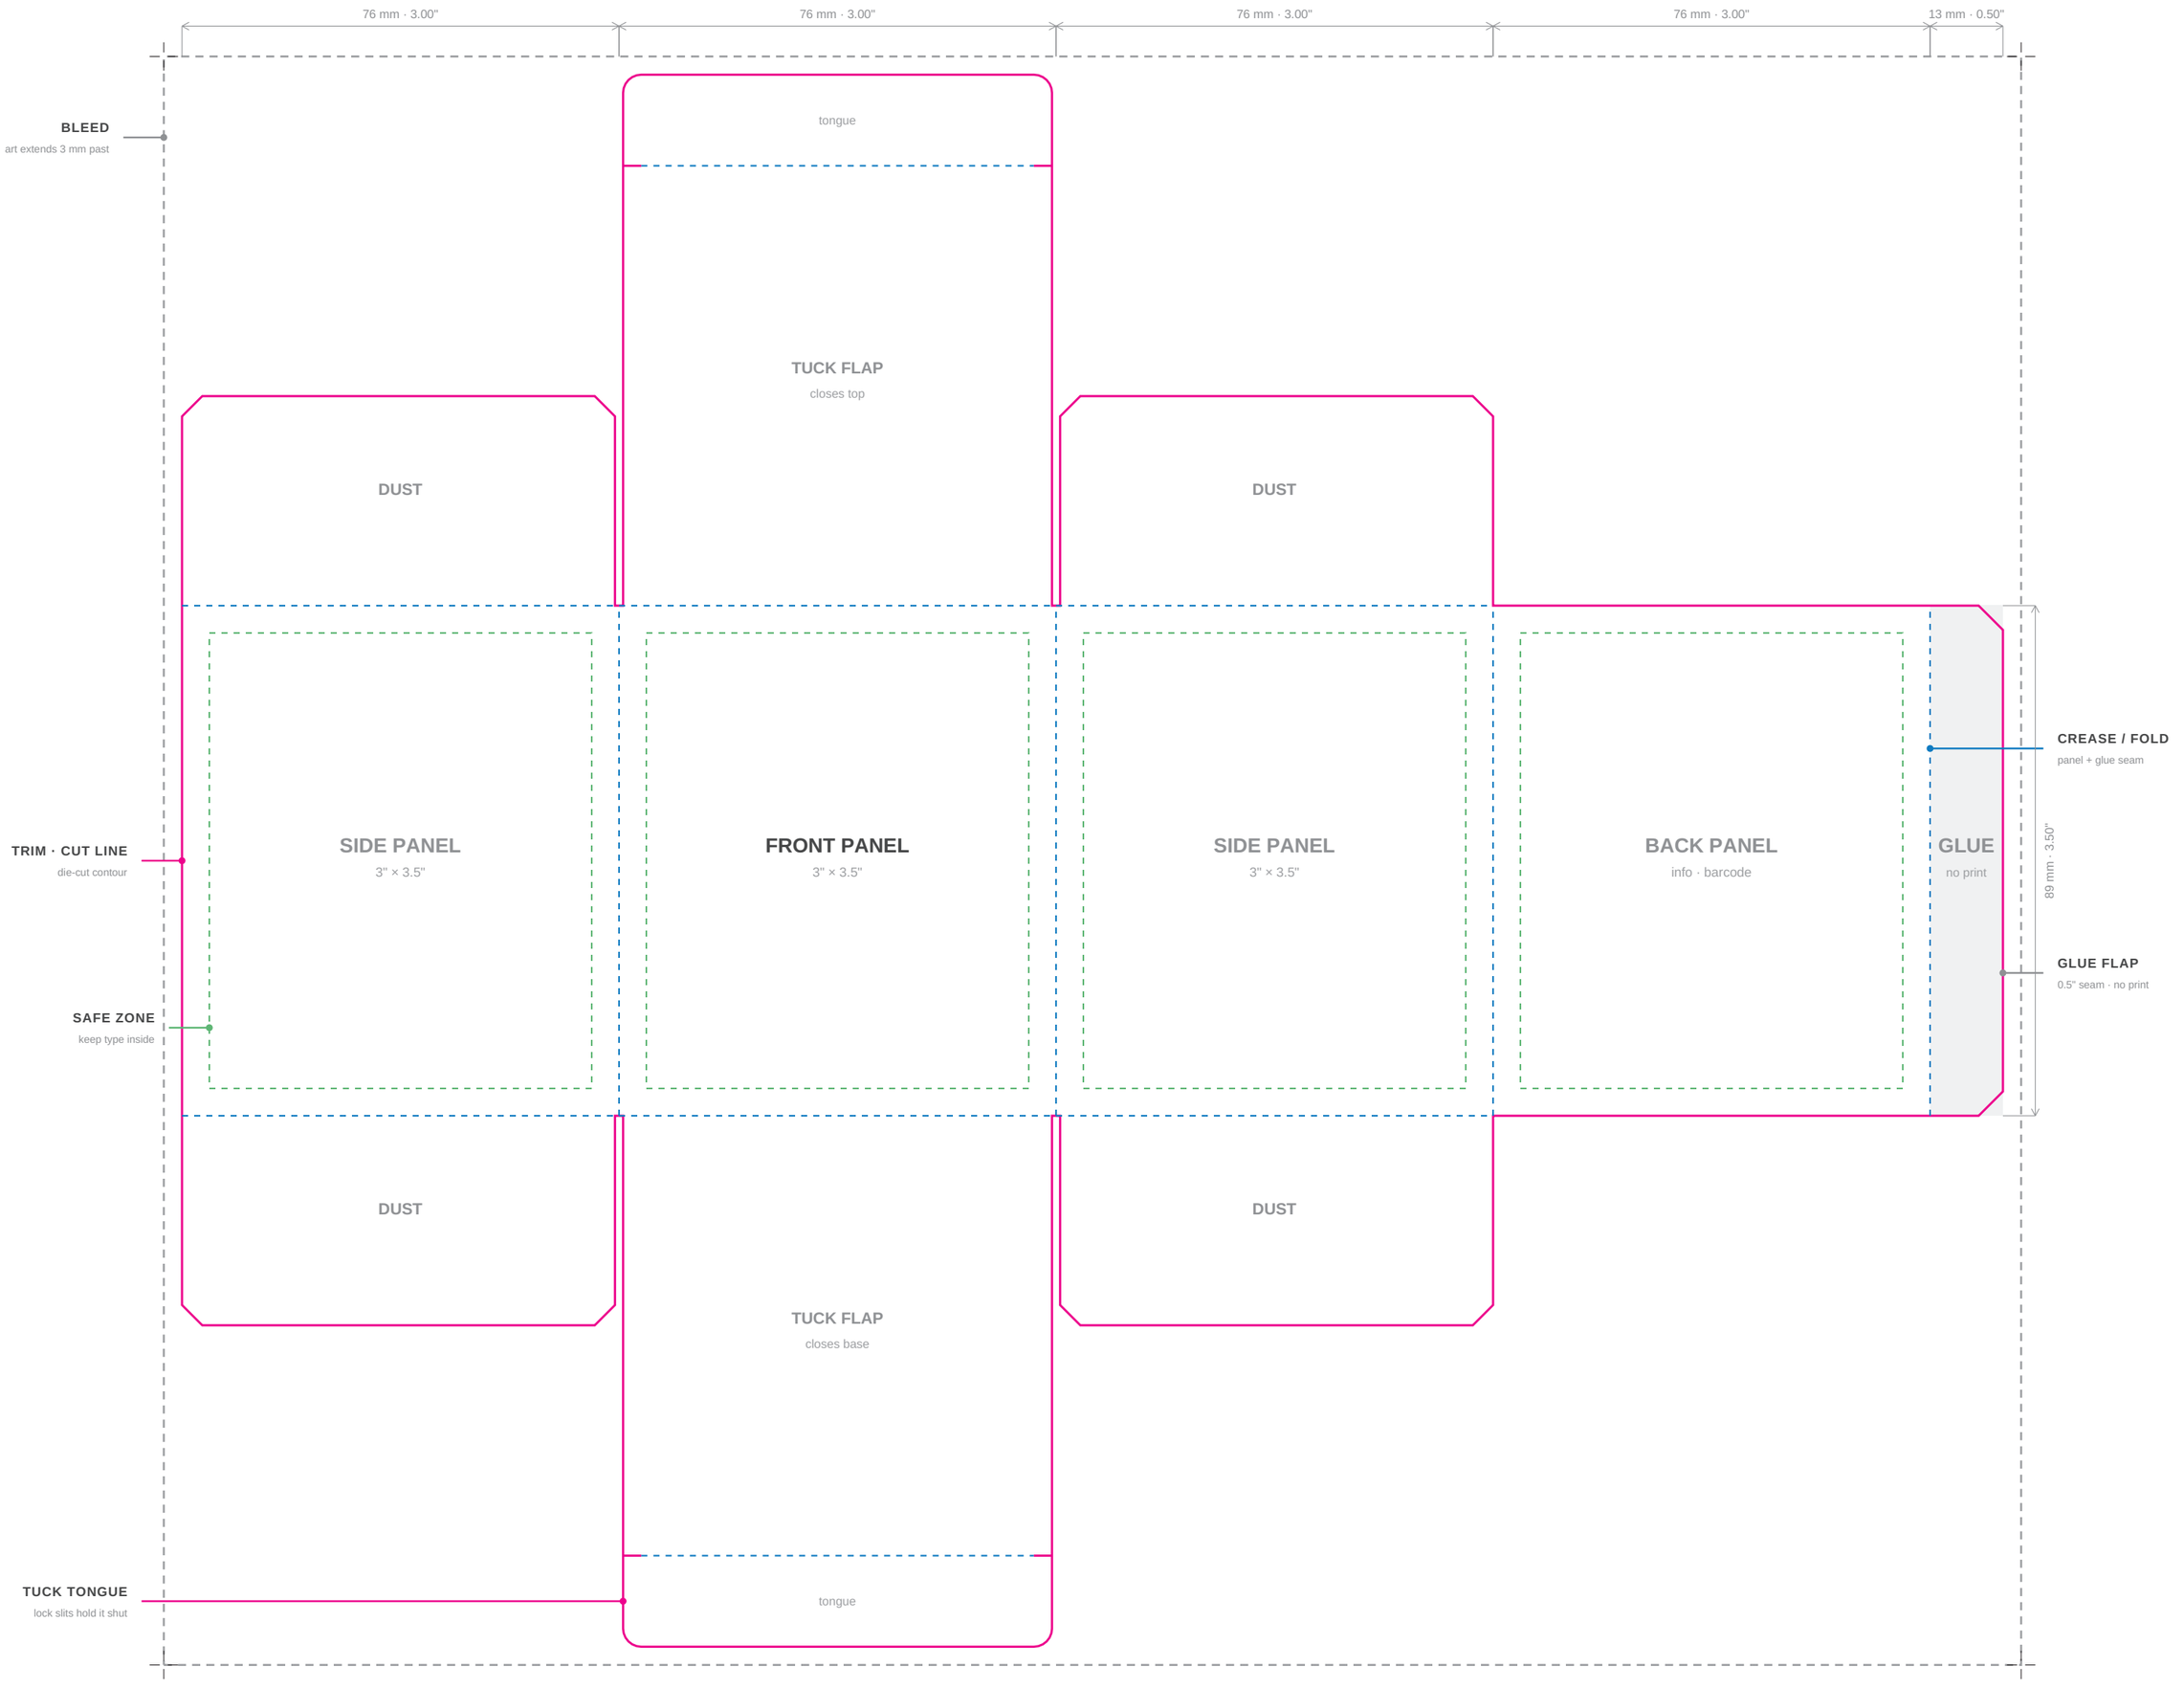
P.O. # _____
VERSION _____



HOW TO USE

Complete the PROJECT block above, then design in.
Keep our die / crease / finish layers on their spots.
Art inside SAFE (green); background out to BLEED.
Magenta = cut · blue = fold · gray = glue (no print).

FILE PREP · COLOUR

CMYK only — no RGB.
Rich black C60 M40 Y40 K100 (large solids only).
Small text: solid 100% K.
Max total ink (TAC) 300% · PDF/X-4 or layered AI.

FILE PREP · TYPE & ART

Vector preferred · raster 300+ ppi at final size.
Embed or outline all fonts.
Min type 6pt positive / 8pt reversed.
Min line 0.25pt / 0.5pt reversed.

FINISH SWATCHES — fill each area with its matching swatch

FOIL — swatch in this file (empty)
SPOTUV — not in this file
EMBOSS — swatch in this file (empty)
WINDOW — not in this file

This template is a design guide, not a final proof. All supplied artwork is preflighted before production; files that miss these specs may be returned for correction.
You are responsible for spelling, colour intent and content. Verify bleed, safe zone and finishes before submitting.
