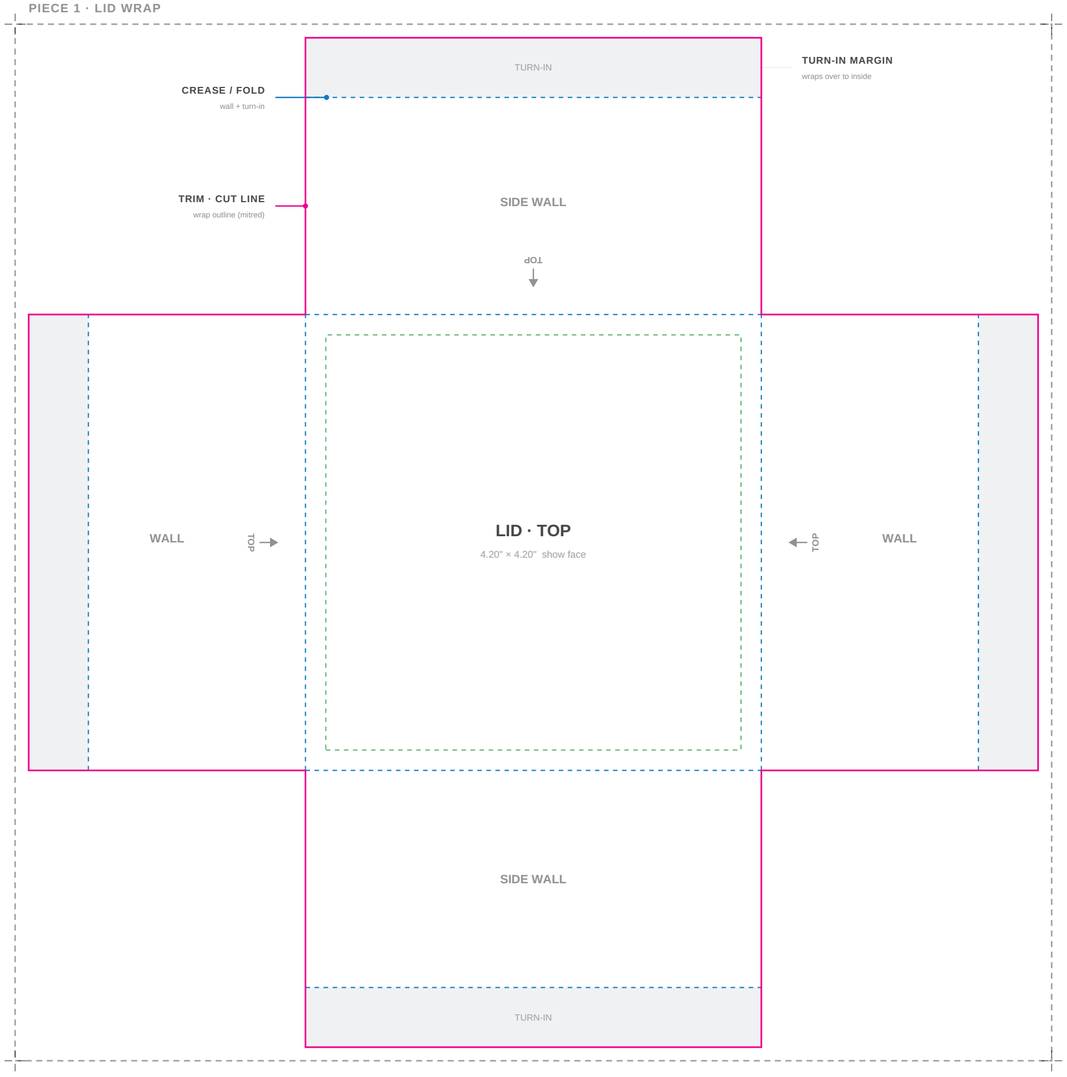
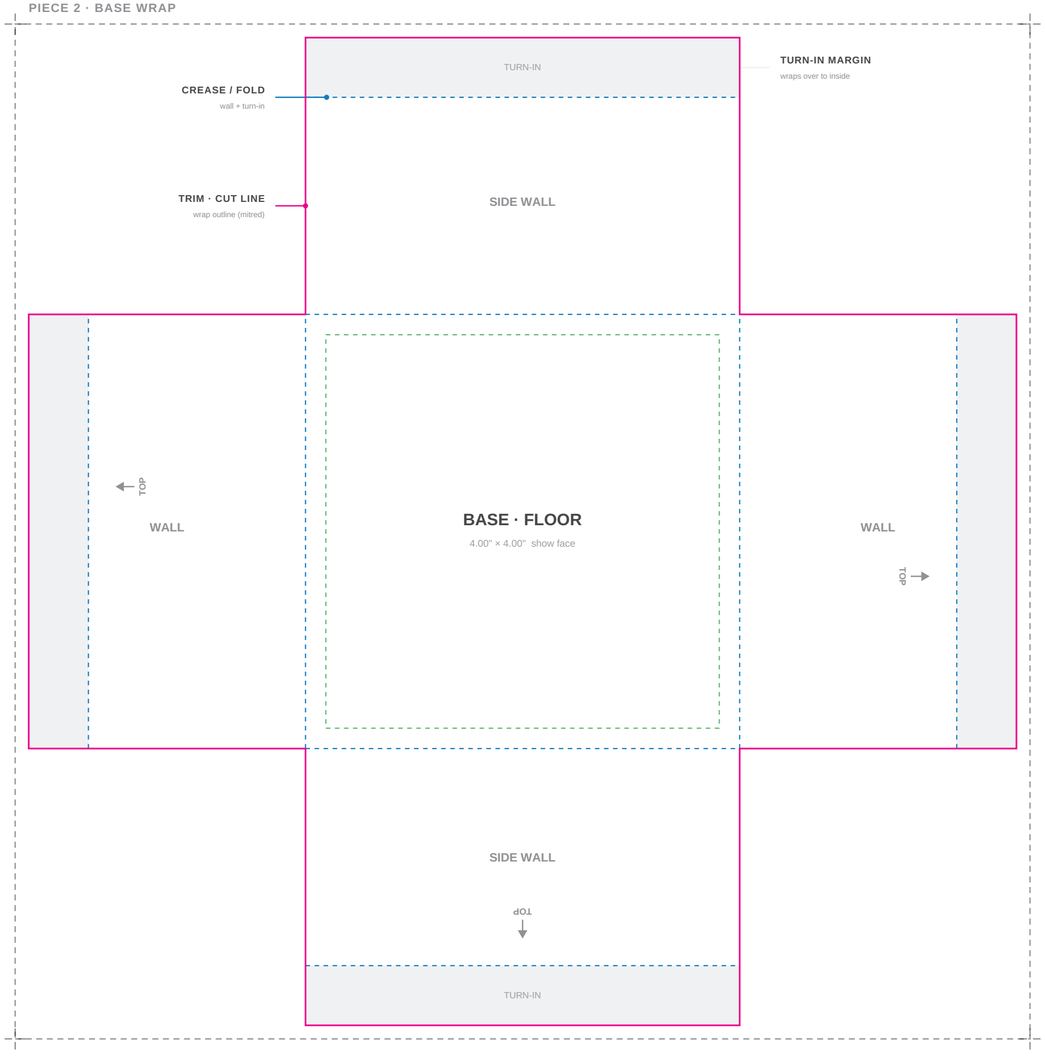
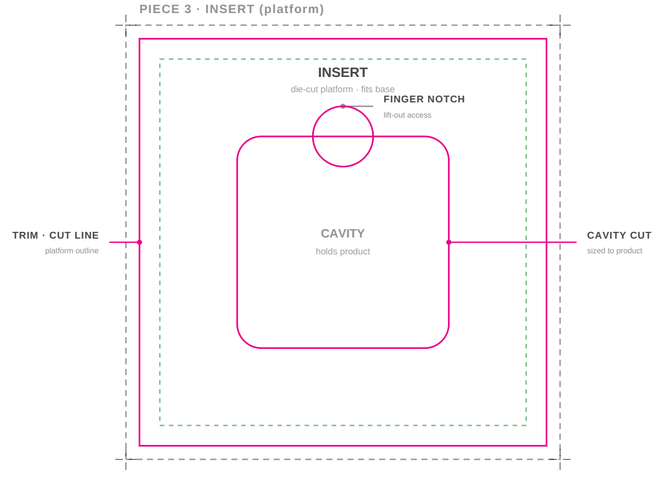
PIECE 1 · LID WRAP



PIECE 2 · BASE WRAP



PIECE 3 · INSERT (platform)



HOW TO USE

Three dies on one sheet — 2 wraps + insert.
Wrap = printed paper over chipboard (turn-in wraps inside).
Art inside SAFE (green) on the show face; bg to BLEED.
Magenta = cut · blue = fold · gray = turn-in (no show).

FILE PREP · COLOUR

CMYK only — no RGB.
Rich black C60 M40 Y40 K100 (large solids only).
Small text: solid 100% K.
Max total ink (TAC) 300% · PDF/X-4 or layered AI.

FILE PREP · TYPE & ART

Vector preferred · raster 300+ ppi at final size.
Embed or outline all fonts.
Min type 6pt positive / 8pt reversed.
Min line 0.25pt / 0.5pt reversed.

FINISH SWATCHES — fill each area with its matching swatch

- **FOIL** — swatch in this file (empty)
- **SPOTUV** — not in this file
- **EMBOSS** — swatch in this file (empty)
- **WINDOW** — not in this file

This template is a design guide, not a final proof. All supplied artwork is preflighted before production; files that miss these specs may be returned for correction.
You are responsible for spelling, colour intent and content. Verify bleed, safe zone and finishes before submitting.

Guides shown do not print.
